Dear all,

For my part it's fine, thank you. I hope you and your team are doing well.

We are confined until May 11. I hope we can get out before. However, as soon as the laboratory is open, I will keep you informed, and I will give you a date for the completion of the tests, as well as the delivery of the report.

Best regards.

Objet : RE: Laboratory closure until further notice

Dear Mr. OLIVERO,

I hope there is no problem in your wellbeing. I don't know how the situations are in your area. Do you have any foresight into when things will settle down a little bit and will you be able to do the tests? We want to see whether we can complete our R&D Project and present our report to EPDK in given time.

I wish you good days and health.

Best regards,

Subject: Laboratory closure until further notice

Dear Rumeysa,

In view of the events, the RICE GRTgaz Alfortville laboratory will be closed until further notice. The trials in progress will be postponed. I inform you that no **package will be accepted during the closing period**. When events return to normal, I will contact you as soon as possible.

Before the laboratory closed, we received the GF tapping saddles for tests.

Thank you for your understanding.

Best regards.
